

LOGISTICS COORDINATION SERVICES

ILT SERVICES provides professional logistics coordination solutions designed to support businesses with the efficient movement of goods, materials, and shipments. Our goal is to help clients streamline operations, improve delivery timelines, reduce transportation challenges, and maintain cost-effective supply chain performance.

A logistics coordinator manages the efficient movement of goods, materials, and shipments to ensure timely and cost-effective delivery operations. Responsibilities include coordinating transportation, inventory management, scheduling, and communication between suppliers, carriers, warehouses, and customers to maintain seamless operational performance and supply chain efficiency.

At ILT SERVICES, we work closely with each client to develop logistics solutions tailored to their operational needs. Our services may include:

- Shipment scheduling and coordination
- Transportation and carrier management
- Freight tracking and delivery updates
- Inventory and warehouse coordination
- Dispatch communication and scheduling
- Vendor and supplier coordination
- Documentation and compliance support
- Route and delivery optimization
- Problem resolution for delayed or disrupted shipments
- General logistics and operational support services

Pricing & Service Structure

Pricing for logistics coordination services varies depending on the scope, complexity, and level of support required for each client. ILT SERVICES understands that every business operates differently, which is why service rates are customized based on individual operational needs.

Several factors may determine pricing, including but not limited to

- Volume and frequency of shipments
- Type of freight or materials being transported
- Distance and delivery locations
- Number of vendors, carriers, or warehouses involved
- Urgency or expedited scheduling requirements
- Level of coordination and administrative support needed
- Inventory management requirements
- After-hours, weekend, or emergency logistics support
- Duration of service agreements (short-term or long-term contracts)
- Specialized handling, compliance, or documentation requirements

Customized Client Solutions

ILT SERVICES may provide:

- One-time logistics coordination assistance
- Ongoing weekly or monthly coordination support
- Contract-based logistics management services
- Customized logistics plans for growing businesses and independent operators

Following an initial consultation, ILT SERVICES will assess the client's operational needs and provide a customized service plan along with transparent pricing based on the level of coordination and support required.

Our commitment is to deliver reliable, organized, and professional logistics coordination services that help businesses operate more efficiently while maintaining dependable communication and timely delivery performance.
